Dindigul, Tamil Nadu, India

SKILLS

Programming

Java

Generative AI & LLMs

LLMs · Prompt Engineering · Retrieval-Augmented Generation (RAG) · LangGraph · Multi-Agent Systems · Agentic AI · ChromaDB

Machine Learning

Model Training · Model Evaluation · PyTorch · TensorFlow · Deep Learning

Data & Streaming

Data Preprocessing · Data Pipelines · Kafka

Databases

MongoDB · ChromaDB

AI Engineer and 4× National-Level Hackathon Winner passionate about building innovative, real-world solutions with AI and technology. Experienced in building Agentic AI workflows, Retrieval-Augmented Generation (RAG) pipelines, deep learning models, and real-time streaming architectures.

EXPERIENCE

Freelance Web Developer

Self-employed · Ongoing

- Built responsive websites and web applications for clients from requirements gathering to delivery.
- Developed front-end interfaces and backend functionality using full-stack development practices.
- Managed design, implementation, hosting setup, debugging, and post-delivery fixes.
- Converted non-technical client requirements into clear scopes, timelines, and working software.

PROJECTS

GHOST LINE — AI-Powered Anonymous Social Platform

React.js · Java Spring Boot · REST API · JWT · Firebase Firestore

- Built a premium anonymous social platform where users connect through emotions using AI-based sentiment analysis and emotion-detection APIs.
- Delivered a full-stack app with Tailwind CSS, realtime chat rooms, and mood-based recommendations.

MeVoAI — Meeting Insights Generator

AI/ML · Chrome Extension · Computer Vision

- Built an AI assistant for Google Meet that generates real-time meeting insights, summaries, and action items.
- Designed a Chrome Extension interface with sign-language gesture prediction to improve accessibility.

FinLog Monitor — Distributed Log Monitoring

Pathway · Kafka · Docker

- Built a real-time distributed log monitoring system for financial-services workloads.
- Used Kafka, Pathway, Docker, and a centralized dashboard for ingestion, stream processing, and monitoring.

EDUCATION

B.E. in Computer Science and Engineering

PSNA College of Engineering and Technology, Dindigul, Tamil Nadu

CGPA: 8.14

HSC (Computer Science)

MSP Solai Nadar Memorial Higher Secondary School, Dindigul

Percentage: 84.16%

ACHIEVEMENTS

- 1st — Algorithm Event — Science & Tech Festival, DSCE
- 1st — MindTwist Event — Science & Tech Festival, DSCE
- 2nd — Technical Quiz — Symposium, Sethu Institute of Technology
- 2nd — PSNA CSE Intra-departmental Hackathon
- 3rd — National Level Hackathon — EASA College, Coimbatore
- 4th — Hackathon — Rajalakshmi Institute of Technology
- 4th — Hackathon — K. S. School of Engineering, Bangalore
- 5th — GDG Hackathon — PSNA IT Department
